

Protect against expensive vehicle repairs

Available for vehicles up to 10 years old

An AsiaCare Warranty can be bought when you are purchasing a used car or at any time of the vehicle's lifespan up to 10 years old or 200,000km

How is an AsiaCare Warranty Different From Auto Insurance?

Auto insurance typically covers damage caused to your vehicle by an accident, theft, fire and other natural disasters.

AsiaCare Warranty plans are in place to repair the covered mechanical or electrical failures of your vehicle if they break down under normal use after the original manufacturers warranty has expired.

Another way to think about the AsiaCare Warranty is that it is HEALTHCARE for your vehicle.
